LOW CARBON ECONOMY"**

DAVID KENNEDY, CEO COMMITTEE ON CLIMATE CHANGE

David Kennedy is Chief Executive of the Committee on Climate Change, an independent body which advises the UK and devolved Governments on tackling and preparing for climate change. The Committee provides advice on setting carbon budgets and reports regularly to the UK Parliament and Assemblies on the progress made in reducing greenhouse gas emissions.

The event will start with tea at 5pm followed by the lecture at 6pm. This will be followed by reception drinks at 7pm and an excellent dinner at 7.30pm. The evening will end at approximately 9.30pm.

Apart from the relevance of a low carbon environment in protecting the environment, you will realise that this will be a golden opportunity not to be missed to meet others with an interest in the highly topical subject of climate change
