

13 September 2022

Dear Queen Consort

Please accept sincere and heartfelt condolences from your fellow Liverymen. We convey our profound sorrow at the death of Her Majesty the Queen to you, your husband King Charles III and the Royal Family.

Her Majesty was a wonderful role model and leader of her people consistently demonstrating tireless dedication, devotion to duty and service delivered with warmth, integrity, a smile and a sense of humour. She will be remembered throughout the UK and around the world as an inspiration for many future generations.

The Company has been privileged to produce a variety of magnificent lead planters for Her Majesty located in key locations around the Royal Estate over many years. The last of these was recently placed at the Royal Household Cricket Ground at Windsor Castle to mark her Platinum Jubilee. These Planters will demonstrate the loyalty and devotion of The Worshipful Company of Plumbers to Her Majesty in perpetuity. You may see these planters in the future.

We look forward to the reign of King Charles III maintaining the standards set by Her Majesty and successfully developing the Monarchy to meet future challenges.

We are confident that the King will be supremely successful and we confirm our loyalty and support to him in this substantial undertaking. He has often referred to the invaluable support that you provide to him and I am sure that this is a vital part of the formula for success.

God save the King and the Queen Consort

from the Master, Nick Jones BA ACA
